

# Aluminum Louvers

## Kwik-Change/Kwik-Fit Series

KC-PLTA

### General Description

Aluminum louvers are an efficient and simple alternative for replacing old, worn or inefficient lighting diffusers with a contemporary aluminum parabolic. Parabolic shaped aluminum louvers provide uniform low brightness, excellent visual control and inconspicuous appearance. This panel is formed of aluminum to precise parabolic contours. They require no rewiring or tools for installation. Once installed, it's virtually maintenance-free.

### Features and Benefits

- For installation in new or retrofit applications
- Offers high efficiency with excellent lamp obscuration
- A choice of specified cell sizes allows you to design your own look
- Ideal for air handling and heat transfer fixtures, meeting all building codes

### Applications

For use in medical facilities, department stores, showrooms, office task areas, banks, conference rooms, commercial and municipal buildings.
